

This aerial view shows a city street intersection. Buildings are represented by grey polygons. The streets are shown as white lines. Green circular overlays of varying sizes are placed on the map, indicating the locations and relative sizes of trees. The circles are concentrated along the sidewalks and in the intersection area. Some circles are solid green, while others are outlined. The overall layout shows a grid-like street pattern with a central intersection.

šrafa vjezdu

šrafa parkovacího stání - zatravněná dlažba

stávající strom

lampa veřejného osvětlení

betonová dlažba - varianty skladeb

sklopený obrubník - výškový rozdíl 30 mm
